SLEEP STUDIES!

- Do you regularly have difficulty getting to sleep or staying asleep?
- Do you have a problem with snoring? Has anyone ever told you that you have pauses in breathing or that you gasp for breath when you sleep?
- Are your legs “active” at night? Do you experience tingling, creeping, itching, pulling, aching or other strange feelings in your legs while sitting or lying down that cause a strong urge to move, walk or kick your legs for relief?
- Are you so tired when you wake up in the morning that you cannot function normally during the day?
- Does sleepiness and fatigue persist for more than two to three weeks?

If you answered YES to any of these questions, please call your physician to obtain a referral today.
